FOR IMMEDIATE RELEASE

Little Crown Interiors Takes the Neutral out of Gender-Neutral!

Naomi Coe and Gerri Panebianco - the creative team behind the nation's premiere nursery design firm: Little Crown Interiors - have just completed a unisex nursery that's an eclectic mix of cottage chic and unique custom décor.

Tackling what is perhaps one of the toughest challenges in the nursery design field, this gender-neutral nursery is truly appropriate for either a boy or girl baby. Veering from the standard yellow unisex nursery, this colorful green, blue and taupe nursery is both chic and truly unisex.

This "it's a surprise" nursery features floor to ceiling custom items: custom upholstered Newport Cottages crib to coordinate with the custom made pull-out sleeper sofa, luxury custom crib bedding and coordinating textiles (black-out curtain panels, pillows, changing pad covers, etc. – all designed and produced by Little Crown Interiors), a custom made area rug, custom wall decals and custom wall monogram.

Naomi Coe and Gerri Panebianco are the co-creators of Little Crown Interiors, a Southern-California based interior design firm specializing in nurseries and children's rooms - nationwide. The two have designed over 60 nurseries and children's rooms. Combining their real-world design expertise, with hands-on motherhood experience, Naomi and Gerri have become experts in juvenile design and product lines, and their services are available throughout the United States.

The work of Little Crown Interiors has been featured in numerous publications including Pregnancy Magazine, Baby Talk Magazine, California Home and Design Magazine and the book "Design Ideas for Baby Rooms". Naomi and Gerri are the authors of the popular "Nursery Culture" column, which appears on www.ProjectNursery.com twice a month, and have also been guest writers for many of the industry's best websites, blogs and magazines.
