

## Press Release

by Little Crown Interiors

### About The Nursery Design:

Melanie Brown and Stephen Belafonte wanted to create a calm and serene environment for their new baby. They were both drawn to design elements that exuded subtlety, richness and elegance. Little Crown Interiors began the design by working with them to choose the perfect color scheme - warm neutrals and lavenders with a hint of sage green. To give the nursery a true tone of opulence, Naomi Alon and Gerri Panebianco designed dramatic draping of the window niche from floor to ceiling in dupioni silk, creating a warm and intimate space for Mel to rock her infant. A dazzling suite of antique silver furniture, plum crushed velvet glider, and ivory damask child sofa fill the room with craftsmanship and beauty. Stunning violet orchids were hand painted on the walls along with completely custom artwork. A sparkling chandelier adorned in crystals hangs from the ceiling, along with matching wall sconces and a pendant. To finish off the nursery, completely custom crib bedding was designed with lush fabrics and a crib crown with fabric draping safely down to shroud baby in love.

This nursery was designed by Naomi Alon and Gerri Panebianco - the co-owners of Little Crown Interiors.

# Meet the Designers

by Little Crown Interiors

Naomi Alon and Gerri Panebianco met while working at an Orange County interior design firm in 2008. After collaborating on numerous nursery and child projects, the two realized their shared passion for this unique niche of interior design and ventured out to create Little Crown Interiors - a highly specialized interior design firm focusing solely on nursery and child spaces. Together, Naomi and Gerri pioneered the juvenile design industry as one of the first and only firms of their kind.

In addition to designing over 70 projects, Naomi Alon and Gerri Panebianco's accomplishments include creating stunning celebrity nurseries, spearheading philanthropy projects, editing as nursery design experts for the industry's hottest magazines, websites and blogs, and even being featured in a wide-selling nursery design book.

The unparalleled knowledge of Naomi and Gerri makes Little Crown Interiors an absolute necessity for parents seeking a nursery designer to create a beautiful, one-of-a-kind room for their little one. The pair's unique talents stem from real life motherhood experience, hundreds of past clients in all fields of design, and a true passion for breathtaking interiors and celebrating childhood.

## *Naomi - Founder, Designer, Artist*

Naomi holds a B.A. in fine arts from Chapman University, and an Interior Design degree from IDI, and is an Allied Member of ASID. She contributes years of experience in all areas of design – from hospitals and offices to kitchens and living rooms (and lots of nurseries, kid's rooms and playrooms) to the Little Crown team.

## *Gerri - Founder, Designer, Special Projects*

Gerri holds both a B.A. and M.A. in Fine Arts from UCSD, and has been designing rooms exclusively for children since 2007. Her experience as a mother of two young sons (who also serve as product testers) enhances Little Crown's ability to design thoughtful spaces with both children and parents in mind.
