## *Little Crown Interiors Rocks Their Latest Nursery!*

**October 27, 2010 (Orange County, CA):** Naomi Coe and Gerri Panebianco - the creative team behind the nation's premiere nursery design firm: Little Crown Interiors - have just completed a Rock and Roll theme nursery for a baby boy in Southern California.

Taking the family's budget needs and existing furniture into account, the nursery designers of Little Crown Interiors used their creative skills to create a highly customized, one-of-a-kind room, while staying on budget. Custom textiles, large chalkboard wall decals, a unique area rug, and plenty of Rock and Roll theme accessories make this nursery design a Rock and Roll fantasy for little Landon.

Naomi Coe and Gerri Panebianco are the co-owners of Little Crown Interiors, a Southern-California based interior design firm specializing in nurseries and children's rooms - nationwide. With real life motherhood experience to call on, and experience designing over 60 juvenile spaces to build on, the designers behind Little Crown Interiors make it easy and stress-free for parents to have an amazing space for their family.

The work of Little Crown Interiors has been featured in numerous publications including Pregnancy Magazine, Baby Talk Magazine, California Home and Design Magazine and the book "Design Ideas for Baby Rooms". Naomi and Gerri are regular contributors to [www.ProjectNursery.com](http://www.ProjectNursery.com), and have also been guest writers for many of the industry's best websites, blogs and magazines.
