MEMORANDUM

*Be the First to Print Photos of Little Crown Interiors' Newest Nursery*

Little Crown Interiors is proud to announce the completion of our newest nursery – a whimsical, Asian-inspired baby girl's nursery. Beautiful high-resolution photos have been commissioned, but have not yet been released for printing.

The homeowner's story of adopting their baby girl from Korea had a direct affect on the design of the nursery, and would provide unique and compelling commentary to compliment publication of the photos.

Additionally, this one-of-a-kind and highly customized nursery was completed on an affordable budget, which could also be of special interest for many readers. Detailed project sheets with product information are available upon request.

For high-resolution photos and other marketing inquiries, please contact:
